

Our client has an immediate career opportunity for a Certified Industrial Hygienist (CIH) to lead the occupational health and safety practice within their growing environmental services division in our Tampa, FL location. This division currently consists of 2 full time staff and 4 support staff. This position will report directly to the Director of Environmental Services. The IH practice is already well established with an existing work load, but this person will be expected to grow the practice. This position comes with endless opportunity for growth. Duties Include:

- Direct an existing professional IH staff;*
- Provide and manage services in the areas of industrial hygiene, environmental investigations and occupational, chemical, radiation, and biological safety;*
- Continue to grow our successful industrial hygiene and safety practice;*
- Help our existing clients solve their occupational health and safety problems;*
- Expand the Corporation's reputation and client base in central Florida.*
- Some travel will be required.*

Job Requirements:

- Bachelor of Science degree in industrial hygiene or other related discipline*
- 5 to 9 years experience in performing industrial hygiene exposure monitoring, bio-aerosols and indoor air quality investigations;*
- Master of Public Health is preferred;*
- Must have Certification in Industrial Hygiene (CIH);*
- Posses an entrepreneurial spirit and willing to market, promote, and grow the company are preferred;*

Salary: \$80-100K (possible relocation dependant on candidate)
