ERGONOMICS RISK ASSESSMENT

Victor S. Garrison, CSP, CPE, will present "Ergonomics- Using Psychophysics to Assess Risk" at the January meeting of the ASSE/AIHA Consortium. Mr. Garrison is a Technical Director for ergonomic and manufacturing services for Liberty Mutual Insurance Group. He has worked with customer project teams to utilize ergonomic principles to evaluate and recommend changes to jobs with the highest injury rates. These changes resulted in a 35% reduction in injury rates within one year and also resulted in productivity gains. Mr. Garrison also helped develop the Managing Vital Performance™ process, which is used to reduce injuries resulting from "at risk" work practices.
