Memphis, Tennessee 38134

Indoor Air Quality Mold Symposium

The Mid-South Chapter of the American Industrial Hygiene Association (AIHA) is presenting this symposium to provide a forum of the latest information regarding mold recognition, evaluation and its control. A variety of experts are on hand to speak from government agencies, such as NIOSH and EPA to discuss the regulatory aspects, what is known of the health effects and new initiatives on the issue at these respective agencies. Consultants and Laboratory representatives will speak on the identification and quantification of mold in building environments and how this information can be used to assess risks and make judgments to control them. Lastly, a remediation contractor will detail the removal actions necessary to rid a building of harmful mold contamination.

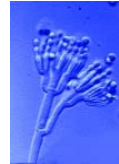

- NIOSH and EPA to discuss regulations, health effects and new directives,
- Consultants and laboratories discussing the identification and quantification of mold in the environment
- Remediation contractors detailing removal actions and experiences in mold remediation

Remediation and Personnel Protective Equipment
