

## **R. Everett Langford Biography**

Dr. Roland Everett Langford has almost 40 years experience in environmental protection, occupational safety and health, and radiation protection. He holds Ph.D. degrees in Physical Chemistry from the University of Georgia with a minor in Geology and in Radiation Health Physics from the University of North Carolina at Chapel Hill with a minor in Industrial Hygiene, as well as a Masters degree (M.S.) in thermodynamics from the University of Georgia. In addition to academic degrees, he is a Certified Industrial Hygienist (CIH), a Certified Safety Professional (CSP), a licensed Professional Engineer (PE), a Certified Professional Environmental Auditor (CPEA), a Fellow of the American Institute of Chemists, a Diplomate of the American Academy of Sanitarians (DAAS), a Registered Hazardous Materials Professional (RHSP), and a registered Sanitarian (RS). Dr. Langford is the author or co-author of three books (on Hazardous Materials Incidents, Drug Abuse, and Weapons of Mass Destruction). He served for twenty years in the U.S. Army Medical Department, retiring in the rank of Lieutenant Colonel, following command of the Army Research Detachment for Toxicology of the Walter Reed Army Institute of Research. He has worked in industry for over ten years, and has international work experience in Bosnia, Croatia, Korea, and Peoples Republic of China. Prior to his military career, he was a college professor of chemistry and geology. Dr. Langford's hobbies include Asian studies, photography, and amateur (ham) radio.
