pgonzalez@dpharm.net

See detailed job description below:

The successful candidate for the position of Environmental Health and Safety (EH&S) Technician shall be fully capable of performing all job functions listed in 1.0 and possess all the qualifications itemized in Sections 2.0 through 5.0.

1. Job Tasks

- 1.1. Works under the direction of the EH&S Manager. Serves as EH&S Department representative in the EH&S Manager's absence.
- 1.2. Assists in the evaluation of hazards within the facility for safety, health, and environmental risks.
- 1.3. Assists in the development, implementation, and maintenance of health and safety procedures and programs for all departments as assigned.
- 1.4. Assists in the monitoring and evaluation of flammable liquid handling and storage locations and procedures in accordance with applicable codes and regulations – including bonding & grounding and quantity and/or container limitations.
- 1.5. Coordinates the addition of all new and existing EH&S programs into Denison's online intranet information management system.
- 1.6. Coordinates implementation of the online (third party) database designed to assure currency and availability of (material) safety data sheets (MSDS) in accordance with State and Federal regulations.
- 1.7. Assists in the coordination and implementation of training sessions for emergency preparedness, confined spaces, electrical safety, machine guarding, fall protection, forklift safety, Lockout/Tagout, Hazard Communication, hot-work and other topics as assigned.
- 1.8. Works with maintenance and facilities management staff to develop equipment, location and operation-specific lockout/tagout and electrical-safety standard operating procedures (SOP's).

- 1.9. Assists with the collection and maintenance of EPA, state, and other records pertaining to hazardous waste, air emission permitting, and water pollution discharge, as well as industrial health monitoring and records of employee hazard exposure according to OSHA regulations.
- 1.10. Maintains awareness of new and current governmental compliance requirements, industry trends, and best practices.
- 1.11. Serves as member of the Safety Committee and attends monthly meetings.
- 1.12. Completes periodic (Weekly and Monthly) Inspections as assigned.
- 1.13. Serves as back-up Emergency Coordinator for Denison Pharmaceuticals.
- 1.14. Assist in ordering All Safety Personal Protective Equipment inventory in compliance with OSHA.

2. Job Skills
